Claims 1-4, 6-8 and 22-35 are now pending.

Response to Amendment

2. The rejection of claims 1-4 and 6-21 under 35 U.S.C. 101 is withdrawn in view of Applicant's amendment.

Allowable Subject Matter

4. Claims 1-4, 6-8 and 22-35 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach, in the express manner recited in the independent claims, when determining that (a) a command is likely to place a reference to an object on an execution stack and (b) there is a change in the flow control between the time the command is likely to place the reference to the object on the execution stack and the time the reference is used to access the object, (1) translating the command into another command that indicates that the reference is likely the only reference to an object, and (2) executing the other command to place the reference to the object on a reference stack, wherein the reference stack is not used to execute computer program code and is designated to store only references that are likely to be the only references to objects stored in a heap.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
